UC SAN DIEGO NEUROSCIENCES GRADUATE PROGRAM

SPRING 2020

TUESDAYS @ 4 PM

Center for Neural Circuits and Behavior | Marilyn G. Farquhar Seminar Room

MAR 31, 2020

DARCY KELLEY Columbia University

Neurobiology of vocal communication:

Linking production to perception

Founder's Lecture in honor of Dr. Robert Galambos

Host: Jessica Du [j4du@ucsd.edu]

APR 7, 2020

ANTHONY LEONARDO Janelia Research Campus

Interaction of visual guidance and internal models

in prey capture

Host: Xiaochun Cai [xic355@ucsd.edu]

APR 14, 2020

TONY WYSS-CORAY Stanford University

Systemic regulation of brain aging and neurodegeneration

Chair's Lecture in honor of Dr. Robert Katzman*

Host: Catie Profaci [cprofaci@ucsd.edu]

TIMOTHY RYAN Weill Cornell Medicine

Metabolic vulnerabilities in synapses and the molecular

pathways they use to overcome them

Host: Marc Marino [mjmarino@ucsd.edu]

APR 28, 2020

SCOTT RUSSO Icahn School of Medicine at Mt. Sinai

Neural circuitry of social behavior

Host: Caroline Sferrazza [csferraz@ucsd.edu]

MAY 5, 2020

FAN WANG Duke University

Active touch and active pain

Host: Susan Lubejko [slubejko@ucsd.edu]

MAY 19, 2020

ZHIGANG HE Harvard Medical School

Axon regeneration and function recovery after CNS injury

Host: Haylie Romero [hkromero@ucsd.edu]

MAY 26, 2020

GÜL DÖLEN Johns Hopkins University

Social reward: Basic mechanisms and
therapeutic opportunities

Host: Emily Baltz [ebaltz@ucsd.edu]

JUN 2, 2020

MARK CHURCHLAND Columbia University

Leveraging theory to understand the empirical motor
cortex population response

Host: Ben Temple [batemple@ucsd.edu]

JUN 9, 2020

JAMES DICARLO MIT

Reverse engineering visual intelligence

Host: Maggie Henderson [mmhender@ucsd.edu]
